Customer Financing Options

RECEIVABLES

COMMERCIAL • GOVERNMENT* • NON PROFIT

*(Federal, State, County & Municipal)

One phone call...a lot of options—for you and for your clients. First Capital has been providing “customer financing options” for equipment vendors, **for 25 years!** Experience *does* count. We know our way around the equipment & software financing business and we know how to help your sales team close more sales, faster and with less customer discounting.

110% financing! Unlike bank financing, a First Capital lease can include shipping, training, installation and initial maintenance too. We can provide a whole array of “cash flow friendly” purchase options that you cost *you* nothing, but may “seal the deal” for your prospects—deferred payments, vendor pre-funding (advanced deposits), seasonally adjusted payments, step-up/step-down leases that mirror the clients cash flow, tax and operating (non-capital) leases. “Credit-challenged,” new and start-up customers too. Our job is “getting the deal done,” whatever it takes.

We handle all of the paperwork, 100% of the follow-up and we move fast—so your sales team can do what they do best. Sell! We'll put a customized lease proposal (your equipment description, your selling price and our repayment terms) on any prospect's desk within 10 minutes of your call—any day, any time! It doesn't get any easier.

All programs pay you 100% of your selling price, on delivery (or portions in advance if required!), all programs are 100% NON-RECOURSE. Once we approve the credit and the client accepts the equipment, we are 100% responsible for the repayment.

- **Lease To Own Programs**
- **Lease w/Option To Purchase Programs**
- **Any Commercial / Manufacturing Equipment**
Including Computer Hardware, Software & 100% Software!
- **Same Day Approvals**
- **24-72 Month Payment Terms**
- **120 Day Deferred Payments Plans**
- **100% Funding / No Recourse / No Receivables**
- **One Page Application to \$75,000**
